

Custom Midterm Evaluation for CPSC 314, Dr. Munzner, Term 2 04-05

Thanks for filling out this survey - it will help me improve the course, both for the rest of this term and for future versions. To return this evaluation anonymously later, ask the front desk receptionist at the CICS second floor to put it in my mailbox.

this course

is worse than I expected is about what I expected is better than I expected

the content of this course is

too introductory just right too advanced

lectures are

too slow just right too fast

in attending the lectures, I

learn almost nothing learn some learn a lot

the lecture slides in this course are

not at all useful ok very useful

the grading in this course is

unfair fair

in doing the programming projects for this course, I

learn almost nothing learn some learn a lot

are the programming projects

too hard just right too easy

in doing the written assignments for this course, I

learn almost nothing learn some learn a lot

are the written assignments

too hard too easy just right

is the total workload

more than most other courses about the same less than most

I attend labs

never sometimes every week

are TA Dan Julius's lab hours

not at all useful somewhat useful very useful didn't attend

are TA Dana Sharon's lab hours

not at all useful somewhat useful very useful didn't attend

are Dr. Munzner's office hours in the lab

not at all useful somewhat useful very useful didn't attend

are Dr. Munzner's newsgroup posts

not at all useful somewhat useful very useful don't read newsgroup

are the demos shown during lectures

very useful somewhat useful not useful

I experiment with the demos outside of class

often sometimes never

the delay on seeing my marks for projects/assignments/midterms is

much less than usual in other courses about the same much more than usual

I would recommend this course to a friend
yes no

number of hours I spent on

programming project 1: programming project 2: written assignment 1:
studying for midterm: required readings: other course-related stuff:
